## Metaphil repairs Davao pier

Metaphil undertakes the 10-million peso repair of a pier owned by San Vicente Terminal & Brokerage Services, Inc. Repair work of beams, piles and underslab will be completed in five months.

With track record of early completion, Metaphil plans on a compressed schedule of 3.5 months.

Project manager Celso Montargo will supervise the work which is mainly subcontracted to Corrtch, Inc., a company that specializes in underwater pier repair.

San Vicente, a repeat client based in Panabo City, Davao del Norte, provides cold storage services for fresh fruits.

Metaphil, an ISO company trusted for quality and reliable construction and fabrication performance for over three decades, has built three piers in Davao.
